

ucTAP comms logging

Posted by 9u4rk - 2010/02/07 00:29

Hi guys.

I'll leave an ucTAP log attached when running \STM\ST20R2.3.1\examples\test5517.
I tried to edit all personal data but if I've overlooked any, pls do not hesitate to tell me so I can correct it.
Thx.

Best regards. <http://www.avi-plus.com/images/fbfiles/files/log.rar>

Hi guys.

Well, on previous log, port 9737's comms seems to be what I need to follow. They start on packet #44:
